PwC Sustainability Day

15 December, 2010

The PwC logo, consisting of the letters "pwc" in a bold, lowercase, sans-serif font.

Dear Sir, Dear Madam,

Heightened public concern and international pressure make sustainability one of the most significant issues facing companies in Luxembourg and worldwide today.

PwC Luxembourg, in association with IMS Luxembourg and Sustain S.A., kicks off its first conference dedicated to sustainability in Luxembourg.

We are delighted to invite you to our first **PwC Sustainability Day**, followed by a walking lunch which will be held

on Wednesday 15 December
from 9h15 to 13h00
at the Luxembourg Chamber of Commerce
(7 rue Alcide de Gasperi, Luxembourg Kirchberg)

The conference aims at bringing together key players of Luxembourg and the Greater Region to express their expectations and exchange their experiences in sustainability. Our distinguished guest speakers will cover the following subjects:

- Creating value through sustainability.
- Sustainable Finance – responsible investment, renewable energies, new infrastructures: what investment strategies?
- New technologies, new infrastructures: what challenges for the cities of the future?

Protecting our environment is a responsibility that we take very seriously and we do our best to use resources with care. At this conference, we will offer you a smart way of compensating your carbon footprint for this event.

You will find hereafter the detailed agenda which we hope you will find both interesting and informative.

Yours sincerely,

Marc Saluzzi
Sustainability Leader, PwC Luxembourg

Christian Scharff
President, IMS Luxembourg

Pol Goetzinger
Partner, Sustain
